Reference: Potomac Yard Metrorail Station
Contract No. FQ16146

Subject: Noise Variance Permit –May 2022

Residents:

Potomac Yard Constructors (PYC) has been issued a noise variance permit for night work as described below. The scope of work consists of installation of Train Control circuits and signalization for the new Potomac Yard Metro Station. This work will take place on and around the existing WMATA tracks and new Potomac Yard Station Site. This work is required to take place at night due to WMATA regulations regarding work within the active roadway. Note, the work may not be continuous due to weather and availability of WMATA work windows.

Dates of work and anticipated activities:

May 16th through June 24th: Installation of Train Control circuits and signalization within WMATA roadway and new station site.

Work Hours: 6:00pm to 7:00am Monday through Saturday, May 16th through June 24th. Work will be performed around the clock.

Activity: Installation of Train Control circuits and signalization within WMATA roadway and new Potomac Yard Metro Station site.

Location: Station site area, North Pavilion site area, 2601 Mainline staging area and the rail corridor.

What Residents Can Expect:

Work Site: Light tower, minimal heavy equipment, and work vehicle noise throughout the nighttime work windows. PYC will ensure that, without compromising a safe working environment, the light towers will be pointed away from residents' homes as much as practicable.

At 2601 Main Line Yard: Employee parking, use of office facilities, generators, minimal loading and unloading of trucks with heavy equipment.

If there is a Project site related emergency, please call 914-353-2225. Call your local contacts and emergency numbers for all non-project related issues and emergencies.

If you have any questions about these activities, please contact the City Inspector Brian Whiteley at 703-656-6025 during regular City business hours.
